

MBS-799 Proposal

① What about moving places? festivals relocate, but so do studios. I think Ian wants a place to map to coordinates.

④ x Worked at would be at the 'geolocation' level. Hence a proliferation of ARs if a studio moves but retains a workforce.

Artist performed at place is not appropriate - so where does this go?

③ how do these relate to 'place'?

② Can a place move to many places? Can many places merge?

⑥ This smells off. 'code' is an attribute of something else - language, country, script all feel fine as is. What's the motivation?

⑤ Yes, a ~~link~~ PK would be best.

⑥.5
